## WILSON WEB

*Applied Science Index*

*Biography Index*

*Education Full Text*

*General Science Abstracts*

*Library Literature*

*Readers' Guide Retrospective*

*Art Full Text/Art Index*

*Book Review Index*

*Essay and General Literature Index*

*Humanities Abstracts*

*Readers' Guide Abstracts*

*Social Sciences Abstracts*

These Wilson databases are available by going to [library.gc.cuny.edu](http://library.gc.cuny.edu) and clicking *Databases*. They may be searched individually or in combination. Home access is explained at [library.gc.cuny.edu/info/remote.asp](http://library.gc.cuny.edu/info/remote.asp).

Art Full Text and Education Full Text offer the full text of some articles. In other instances and for the rest of the Wilson databases, use the  button to determine if journal articles are available from a full-text database to which the library subscribes, to see CUNY's holdings for the journal, and to make an interlibrary-loan request.

Applied Science Index covers 350 periodicals in mathematics, computer technology, physics, and engineering from October 1983 to the present.

Art Full Text indexes 410 journals, providing the full text of many beginning with 1997. Unlike the other databases listed here, Art Full Text is not available throughout CUNY.

Art Index is Art Full Text without the text.

Biography Index includes references to biographical material, such as interviews, obituaries, and bibliographies from over 3,000 periodicals and approximately 2,000 books each year since July 1984.

Book Review Digest provides excerpts from reviews of fiction and nonfiction in the humanities, social sciences, general sciences, and popular topics published in English since 1983. General Science Abstracts, Humanities Abstracts, Readers' Guide Abstracts, and Social Sciences Abstracts also index book reviews, as do Academic Search Premier and most full-text databases. Please see the Mina Rees Library guide "Finding Book Reviews," also available at [library.gc.cuny.edu/research/bookreviews.asp](http://library.gc.cuny.edu/research/bookreviews.asp).

Education Full Text indexes education periodicals published since June 1983 and includes the full text of many articles published since January 1994.

Essay and General Literature Index contains citations to essays in collections of mostly scholarly works and miscellaneous works published since 1984 in the United

States, Canada, and the United Kingdom. More than 300 volumes are indexed annually. While there are no abstracts, complete contents of the volumes are listed. This resource indexes materials not indexed elsewhere.

General Science Abstracts indexes scholarly and popular science periodicals published in the United States and the United Kingdom since 1983 with abstracts for articles published beginning in March 1993.

Humanities Abstracts indexes scholarly, English-language periodicals published since 1983. Use this resource to supplement Art Index, LLBA, MLA, and RILM.

Library Literature indexes 220 periodicals as well as books and conference proceedings since 1984.

Readers' Guide Abstracts indexes popular periodicals published since 1983.

Readers' Guide Retrospective provides bibliographic citations only from 1890 to 1982.

Social Sciences Abstracts indexes scholarly English-language periodicals in the social sciences published since 1983.

**JOURNAL LIST:** To see a list of journals available for indexing and abstracting, click *InfoCenter*. When a popup screen appears, select *Journal Directory* and proceed to the screen where you select a database whose titles you wish to see. Except for Art Full Text and Education Full Text, do not choose the full-text display option.

**SEARCHING:** Advanced Search is the default search screen for Wilson Web. Enter your search term(s) and check the box(es) in front the database(s) you wish to search. Scroll down for Social Sciences Abstracts. You may search separate fields of a record such as abstract, author, document type, publisher, subject, article title, etc. but only after selecting a database. To exclude book reviews, use the *not* operator and document type and select *book review*. You may also limit by date and document type; do the latter if you wish to find only book reviews, film reviews, obituaries, etc. You may also perform basic and browse searches and use the thesaurus to find appropriate subject headings.

**DISPLAYING RESULTS:** The default display is the brief one. To see the abstract of an article, click its title. Click *Customize Display* for additional options. The advanced search screen also allows you to sort results by relevance, date, author, article title, journal name, etc.

**ADDITIONAL HELP:** Contact the reference desk (212-817-7077) on the second floor of the library or use the Ask a Librarian button on the library's Web site to ask questions about using Wilson Web databases or any other library resource.

**OTHER GUIDES:** "Creating Accurate Search Statements," "Finding Book Reviews," guides to other databases, and more may be found at [library.gc.cuny.edu/guides/guides.asp](http://library.gc.cuny.edu/guides/guides.asp).
